

In Vitro Diagnostic Reagent

BK Buffer 1.95 L

An auxiliary reagent for immunoassay, used together with immunoassay reagents to provide/maintain the reaction environment for the Beckman series chemiluminescence immunoassay analyzers

Product Photo

Product Model	BK Buffer
Packaging Specifications	1.95 L, 1.95 Lx4
Product Code	p1062

Intended Use

An auxiliary reagent for immunoassay, used together with immunoassay reagents to provide/maintain the reaction environment for the Beckman series chemiluminescence immunoassay analyzers

Composition

Composed of sodium chloride, stabilizer, surfactant, preservative and water

Storage & Handling

Handle gently during loading and unloading...

Other Information

Wash Buffer
