Blood Cell CD Cleaning Solution

This product is a cleaning agent for the reaction system during testing with the blood cell analyzer, so as to facilitate the in vitro testing of blood cells, hemoglobin, and other substances to be measured

Product Photo

Product Model	Blood Cell CD
Packaging Specifications	5 L, 20 L
Product Code	p1070

Intended Use

This product is a cleaning agent for the reaction system during testing with the blood cell analyzer, so as to facilitate the in vitro testing of blood cells, hemoglobin, and other substances to be measured

Principle

This product is a cleaning agent for the reaction system. Its main working principle is that the surfactant in the cleaning solution effectively lowers the surface tension of the proteins in the reaction system, so that the proteins in blood specimens are readily washed away...
