Product Model	Blood Cell Analyzer Cleaning Solution–MR–CRP
Packaging Specifications	250 mL, 500 mL, 1 L, 3 L, 5 L, 20 L
Product Code	p1298

Intended Use

This product is used to clean the reaction system during the testing process, so as to facilitate the in vitro testing of the substances to be measured

Principle

This product is a cleaning solution for the reaction system. Its main working principle is that the surfactants in the cleaning solution can effectively reduce the surface tension of the residues in the reaction system, making the residues easier to clean
