

In Vitro Diagnostic Reagent

Diluent-MEK

Used to dilute the sample and prepare a cell suspension prior to blood cell analysis

Product Photo

Product Model	Diluent-MEK
Packaging Specifications	5 L, 20 L
Product Code	p1117

Intended Use

Used to dilute the sample and prepare a cell suspension prior to blood cell analysis

Principle

It dilutes the blood cells and, in combination with the flow cytometric technique based on the impedance method, colorimetry, laser light scatter and fluorescence staining, performs cell differentiation, counting and hemoglobin determination

Composition

Sodium sulfate, sodium chloride, phosphates, preservatives
