Product Model	Hemolysing Agent-90LHB
Packaging Specifications	500 mL, 1 L × 2, 5 L, 10 L, 20 L
Product Code	p1216

Intended Use

Used prior to blood cell analysis to lyse red blood cells, release hemoglobin and preserve the morphology of the cells to be analyzed, thus facilitating cell differentiation and counting or quantitative determination of hemoglobin

Principle

During blood cell testing, this reagent lyses red blood cells and modifies the white blood cells, measuring their volume (impedance method) to...
