

In Vitro Diagnostic Reagent

Hemolysing Agent-LN68P

Used prior to blood cell analysis to lyse red blood cells and preserve the morphology of the cells to be analyzed, thus facilitating cell differentiation and counting

Product Photo

Product Model	Hemolysing Agent-LN68P
Packaging Specifications	500 mL, 1 L, 4 L, 20 L
Product Code	p1250

Intended Use

Used prior to blood cell analysis to lyse red blood cells and preserve the morphology of the cells to be analyzed, thus facilitating cell differentiation and counting

Principle

During blood cell testing, red blood cells are lysed, and the dye component in Stain Solution-FN68P stains the nucleated red blood cells, in combination with laser light scatter and fluorescence staining...
