Product Model

Diluent-BC5DP

Packaging
Specifications

1 L, 2 L, 5 L, 10 L, 20 L

Product Code

p1314

Intended Use

It is used to dilute the whole-blood sample to be tested and, together with the blood analyzer or reagents, to detect the substance to be measured; clinically, it is used prior to blood cell analysis to prepare a cell suspension by diluting the sample

Principle

It dilutes the blood cells so that the instrument can count and classify blood cells by the impedance method

Composition

Sodium chloride, sodium sulfate, preservatives
